

PLUMBING SAFETY

STAY ALERT, WATCH WHAT YOU ARE DOING AND USE COMMON SENSE WHEN OPERATING A POWER TOOL. IF YOU DO NOT UNDERSTAND THE SAFE OPERATION OF THE EQUIPMENT, STOP WHAT YOU ARE DOING!!! CALL US IMMEDIATELY!!!

- 1) Wear proper work gloves. Never grasp a rotating cable with a rag or cloth glove.
- 2) Do not overstress the cable. Keep gloved hand on the cable for control when machine is running.
- 3) Position machine with two feet of the drain inlet.
- 4) Machine is designed for one person operation. Operator must control foot switch and cable.
- 5) Do not operate machine in reverse (REV). It is only used to back cutting tool out of an obstruction.
- 6) Keep hands away from rotating drum. Do not reach into drum unless machine is unplugged.
- 7) Do not operate machine if operator or machine is in standing water. Will increase risk of electrical shock.
- 8) Wear safety glasses and rubber soled, non-slip shoes. May prevent serious injury.

Only use this tool in the applications for which it was designed. Follow the instructions on the proper use of the machine. If you do not understand the safe operation of this equipment, CALL US IMMEDIATELY!
